2009: Confirms the relevance of our strategy

- Retained high margins for all our businesses, largely due to success of subscription-based model
- Maintained focus on investments and developed innovation to satisfy consumer demand for broadband, mobility and digital content
- Enhanced the performance of the group due to 2007-2008 acquisitions
- Pursue strategy and capital allocation policy to deliver long term shareholder value:
 - Proposing a €1.40 dividend per share in cash, to be paid in May 2010
 - Seeking acquisition of France-based minority interests when the opportunity arises
 - Allocating capital towards fast-growing regions / businesses within media and telecom

Strong results in a challenging 2009 environment

■ Revenues:	€ 27,132 m	+ 6.9 %
■ EBITA:	€ 5,390 m	+ 8.8 %
■ Adjusted Net Income:	€ 2,585 m	- 5.5 %
■ CFFO before capex:	€ 7,799 m	+10.5 %
■ CFFO:	€ 5,237 m	+ 3.6 %
<hr/>		
■ Net debt*:	€ 9.6 bn	at end 2009
■ Net debt excluding acquisition of 100% of GVT:	€ 6.5 bn	at end 2009
■ Activision Blizzard deferred EBITA in balance sheet as of December 31, 2009:	€ 733 m	+ € 231 m

Another year of record results, leading to proposed record dividend distribution of €1.7bn in cash (€1.40 per share)

Outstanding business and financial performance in 2009

Solid subscription activity

- SFR #1 in mobile postpaid net adds with 36% market share in 2009
- SFR grew its broadband net adds market share to 33%* in 2009
- Canal+ France's portfolio increased by 238k subscribers yoy
- Approximately 11.5m *World of Warcraft* subscribers worldwide
- Maroc Telecom Group grew its portfolio by 2.4m customers both in Morocco and in its African subsidiaries in 2009
- GVT's number of lines in service increased by 48% in 2009 to 2.8m

Major global breakout hits

- Black Eyed Peas, U2, Eminem, Lady Gaga, Taylor Swift, GreeeeN, Mylène Farmer, Cecilia Bartoli
- *Call of Duty: Modern Warfare 2*, over \$1bn in retail sales worldwide to date**

Solid financial performance

- Activision Blizzard, Canal+ Group and GVT increased their EBITA margins
- All businesses delivered double digit EBITA margins

Each and every objective of our capital allocation policy achieved

- Provide Vivendi's business units with the necessary resources to enhance innovation and organic growth
 - Deliver dividends to shareholders with a distribution rate of at least 50% of ANI
 - Buy out minorities when opportunities arise
 - Seize external growth opportunities with a focus on fast-growing regions / businesses within media and telecom, assessed under strict financial criteria based on ROCE
- ☑ Investment in premium content (€2.5bn) and capital expenditure in networks (€2.4bn)
 - ☑ Propose a €1.40 dividend (67% of ANI), to be paid in cash in May 2010, a total distribution of €1.7bn
 - ☑ Acquisition of TF1's and M6's stakes in Canal+ France, raising Vivendi's stake to 80%
 - ☑ **Concluded negotiation to exit from NBC Universal**, a mature asset, at a price of \$5.8bn near the top end of market expectations of \$4-6bn, based on a valuation multiple of 10-11x EBITDA
Acquired GVT, a fast-growing business in one of the largest markets in the world, at a multiple of 9x EBITDA

Vivendi's focus on innovation and growth in 2009

Major initiatives in 2009:

- Acquisition of GVT in Brazil, expanding Vivendi's footprint in fast-growing markets
- Launch of iPhone to SFR customers, accelerating mobile internet penetration
- Launch by SFR of convergent offers to SME
- Launch of VEVO, a premium music video service
- Acquisition of 51% of Sotelma, the Malian incumbent telecom operator
- Exclusive launch of m-banking services by Maroc Telecom
- Launch of new services by Canal+ Group to increase ARPU and customer loyalty (+Le Cube, Canal+ on demand, Foot+, iPhone application, agreements with Microsoft on Xbox 360...)
- Canal+ Group in joint-venture with VTV to launch a pay-TV platform in Vietnam, which is now up and running
- Development of downloadable content and value added services by Activision Blizzard to benefit from the high margin growth opportunities of the digital/online sector

Vivendi is ideally positioned to capture growing demand from consumers for mobility, broadband and digital content

Vivendi to sell its 20% stake in NBC Universal for \$5.8bn*

- Vivendi will sell its 20% stake in NBC Universal to GE for \$5.8bn and will not be a shareholder in the new entity resulting from the joint venture between NBC Universal and Comcast content assets:
 - If the GE–Comcast transaction is not completed by September 26, 2010, Vivendi will sell 7.66% of NBCU to GE for \$2bn
 - The remaining 12.34% stake will be sold upon completion of the GE–Comcast transaction, and Vivendi will receive \$3.8bn at that time. If the transaction were not completed, Vivendi would have the right to launch an accelerated IPO of its remaining 12.34% of NBCU
- Vivendi has been able to maximize the value to its shareholders:
 - The value of \$5.8bn for its 20% stake is at the top end of market expectations of \$4-6 billion
 - Vivendi will continue to receive quarterly dividends from NBCU between now and the completion of the GE–Comcast transaction. GE has agreed to make transaction payments to Vivendi to the extent that NBCU's 2010 dividend payments to Vivendi are less than \$268m provided Vivendi remains a shareholder through that time

In line with its strategy, Vivendi has capitalized on the opportunity to exit its minority stake in a non-core asset in the best interests of its shareholders

GVT: outstanding asset and perfect fit with Vivendi

- Acquired an asset with considerable growth potential: a successful alternative operator and a very profitable business model, based on creative and differentiated marketing and network/IT solutions
- A major step into one of the largest consumer markets in the world; leveraging Vivendi's telecom and digital content know-how
- Bring Vivendi's experience to GVT for its next planned move to pay-TV
- Pay a reasonable price for a fast-growing asset:
 - Corresponds to 9x consensus EBITDA 2010E with EBITDA growth expected to be ~25% in 2011
 - We anticipate ROCE to exceed 12% WACC within 5 years, in line with our financial criteria

Aligned with Vivendi's strategy of expansion in fast-growing regions

Vivendi controls 87%* of GVT's share capital

Class action: a long process

- On January 29, 2010, a jury decided against Vivendi, but cleared its former executives. Vivendi was found to have acted recklessly between October 2000 and August 2002. Jury reduced plaintiffs' requested damages by more than 50%.
- Next steps:
 - Entry of verdict by the judge, to be challenged by Vivendi
 - Appointment of an agent to run claims and damages process
 - Full judgment entered by the judge
 - Appeal by Vivendi

Class action: Vivendi will appeal to overturn jury verdict

- Vivendi has many grounds for appeal including:
 - Individuals exonerated but Vivendi liable for miscommunication !
 - Court's decision to include French shareholders in the class
 - Court's decision regarding its jurisdiction
 - Plaintiffs' erroneous method of proving and calculating damages
 - Numerous incorrect rulings made during the course of the trial
- The amount of the potential damages is uncertain and will not be known for at least 12 to 18 months. Amounts mentioned to the press by the plaintiffs or their lawyers are just posturing
- Based on ad-hoc experts, we have accrued a €550m provision in our 2009 accounts
- Credit ratings remain unchanged. The verdict does not change Vivendi's profitable growth strategy

Capital allocation priorities to maximize returns for shareholders

- Leverage Vivendi's leading communications and entertainment assets through continued investments in content and networks
- Deliver dividends to shareholders with a distribution rate of at least 50% of Adjusted Net Income
- Buy out minorities in France-based entities at the right price when opportunities arise
- Seize external growth opportunities with a focus on fast-growing regions / businesses, assessed under a selective, rigorous and financially disciplined process
 - Focus on our core skills: media and telecom subscription-based business models
 - Profitable assets with strong growth prospects
 - ROCE to exceed local risk adjusted WACC within 3 to 5 years
 - EPS accretive in the short term

Outlook for 2010

- We have planned 2010 with a reasonably conservative stance, due in part to the continued uncertainties relating to the broader macroeconomic environment and consumer demand, as well as growing regulatory pressure
- In 2010, we remain committed to building growth for the future:
 - We will continue to invest in marketing and products to attract customers and gain market share
 - We will continue to invest in content and networks to enhance our commercial offers
 - We will continue to explore opportunities in fast growing regions / businesses

Guidance 2010: Slight increase in EBITA

2009: EBITA up 9% and CFFO above €5.2bn

- Economic conditions were more challenging than anticipated however our subscription-based model minimized the impact from the crisis
- Exceptional cash generation in 2009: CFFO before capex at €7.8bn and above €5.2bn after capex
- We continued investing in network, innovation and content
- Cost synergies on target and further selective cost management planned in 2010
- Our financial situation remains solid: Net debt was €9.6bn as of December 31, 2009 including the impact of the acquisition of 100% of GVT

Strong results in a challenging 2009 environment

■ Revenues:	€ 27,132 m	+ 6.9 %
■ EBITA:	€ 5,390 m	+ 8.8 %
■ Adjusted Net Income:	€ 2,585 m	- 5.5 %
■ CFFO before capex:	€ 7,799 m	+10.5 %
■ CFFO:	€ 5,237 m	+ 3.6 %

■ Net debt*:	€ 9.6 bn	at end 2009
■ Net debt excluding acquisition of 100% of GVT:	€ 6.5 bn	at end 2009
■ Activision Blizzard deferred EBITA in balance sheet as of December 31, 2009:	€ 733 m	+ € 231 m

2009 highlights by business

Well above other 3rd party publishers performance, driven by success of major franchises. Exceeding guidance in US non-GAAP, posting record operating margin and EPS in tougher-than-expected market conditions

SFR

Outstanding execution in the integration of Neuf Cegetel within the new SFR. Maintain solid EBITDA margin despite greater regulatory pressure, weak economic conditions and commercial expansion in postpaid mobile and broadband

Strong growth in number of lines in service and better product mix, driving revenues* up 29% and EBITDA* up 30%

UNIVERSAL MUSIC GROUP

Double digit EBITA margin, despite very challenging music market. Increased participation in a broader range of music revenue streams. Successful launch of VEVO

EBITA margin above guidance due to cost control in a difficult competitive and economic environment. Growing footprint with acquisition of Sotelma in Mali

CANAL+

GROUPE

Strong commercial performance at Canal+ France with 238k portfolio net growth and ARPU increase. Full benefit of TPS synergies. Strong growth in Poland and launch in Vietnam

(a) The growing development of online functionality for console games and the recent rapid expansion in their use has led Activision Blizzard to believe that online functionality, along with its obligation to ensure durability, constitutes, for certain games, a service forming an integral part of the game itself. However, in this case, Activision Blizzard does not account separately for the revenues linked to the sale of the boxed software and those linked to the online services because it is not possible to determine their respective values, the online services not being charged for separately. As a result, the company recognizes all of the revenues from the sale of these games ratably over the estimated service period, usually beginning the month following shipment.

(b) Reflects the results of products and operations from the historical Vivendi Games businesses that Activision Blizzard has divested, exited or wound-down.

Please refer to page 49 for definitions

(a)/(b) Please refer to explanation on page 35

(c) In IFRS, existing Activision stock-options were neither re-measured at fair value nor allocated to the cost of the business combination at the closing date; hence the incremental fair value recorded in US GAAP is reversed, net of costs capitalized

(d) Includes severance costs, facility exit costs, and balance-sheet write down and exit costs from the cancellation of projects. In IFRS, accrual for restructuring activities is recorded at the time the company is committed to the restructuring plan. In US GAAP, the corresponding expense is recorded on the basis of the actual timing of the restructuring activities

ARPU (Average Revenue Per User) is defined as revenues net of promotions and net of third-party content provider revenues excluding roaming revenues and equipment sales divided by the average ARCEP total customer base for the last twelve months. Since January 1, 2009, ARPU excludes M2M (Machine to Machine) revenues. The 2008 figures were updated in order to take into account the change in definition and to be consistent with 2009 figures.

Glossary

Adjusted earnings before interest and income taxes (EBITA): EBIT (defined as the difference between charges and income that do not result from financial activities, equity affiliates, discontinued operations and tax) before the amortization of intangible assets acquired through business combinations and the impairment losses of intangible assets acquired through business combinations.

Adjusted earnings before interest, income taxes and amortization (EBITDA): As defined by Vivendi, EBITDA corresponds to EBITA as presented in the Consolidated Statement of Earnings, before depreciation and amortization of tangible and intangible assets, restructuring charges, gains/(losses) on the sale of tangible and intangible assets and other non-recurring items (as presented in the Consolidated Statement of Earnings by each operating segment).

Adjusted net income includes the following items: EBITA, income from equity affiliates, interest, income from investments, including dividends received from unconsolidated interests as well as interest collected on loans to equity affiliate and unconsolidated interests, as well as taxes and minority interests related to these items. It does not include the following items: impairment losses of intangible assets acquired through business combinations, the amortization of intangibles assets acquired through business combinations, other financial charges and income, earnings from discontinued operations, provision for income taxes and minority interests relating to these adjustments, as well as non-recurring tax items (notably the change in deferred tax assets relating to the Consolidated Global Profit Tax System, the reversal of tax liabilities relating to risks extinguished over the period and the deferred tax reversal related to taxes losses at SFR/Neuf Cegetel level).

Cash flow from operations (CFFO): Net cash provided by operating activities after capital expenditures net, dividends received from equity affiliates and unconsolidated companies and before income taxes paid.

Capital expenditures net (Capex, net): Capital expenditures, net of proceeds from property, plant and equipment and intangible assets.

Financial net debt: As of December 31, 2009, Vivendi changed the definition of Financial Net Debt to include certain cash management financial assets the characteristics of which do not strictly comply with the definition of cash equivalents as defined by the Recommendation of the AMF and IAS 7. In particular, such financial assets may have a maturity of up to 12 months. Considering that no investment was made in such financial assets prior to 2009, the retroactive application of this change of presentation would have no impact on Financial Net Debt for the relevant periods and the information presented in respect of fiscal year 2008, is therefore consistent. As of December 31, 2009, Financial Net Debt is calculated as the sum of long-term and short-term borrowings and other long-term and short-term financial liabilities as reported on the Consolidated Statement of Financial Position, less cash and cash equivalents as reported on the Consolidated Statement of Financial Position as well as derivative financial instruments in assets and cash deposits backing borrowings (included in the Consolidated Statement of Financial Position under “financial assets”) as well as, from this point forward, certain cash management financial assets.

The percentage of change are compared with the same period of the previous accounting year, except particular mention.

Activision Blizzard – stand alone - definitions

US Non-GAAP Financial Measures

Activision Blizzard provides net revenues, net income (loss), earnings (loss) per share and operating margin data and guidance both including (in accordance with GAAP) and excluding (non-GAAP): the impact of the change in deferred net revenues and related cost of sales with respect to certain of the company's online-enabled games; expenses related to share-based payments; Activision Blizzard's non-core exit operations (which are the operating results of products and operations of the historical Vivendi Games, Inc. businesses that the company has exited or substantially wound down); costs related to the business combination between Activision, Inc. and Vivendi Games, Inc. (including transaction costs, integration costs, and restructuring activities); the amortization of intangibles and impairment of intangible assets; and the associated tax benefits.

Comparable basis

Comparable basis includes both Activision, Inc. and Vivendi Games from January 1st, 2008 and is based on standalone US GAAP and US non-GAAP.

Outlook - disclaimer

Activision Blizzard's outlook is subject to significant risks and uncertainties including declines in demand for its products, competition, fluctuations in foreign exchange and tax rates, counterparty risks relating to customers, licensees, licensors and manufacturers and risks relating to the ongoing ability of Blizzard Entertainment's licensee, NetEase.com, Inc., to operate World of Warcraft in China on a paying basis without interruption. The company's outlook is also based on assumptions about sell through rates for its products, and the launch timing, success and pricing of its new slate of products. Current macroeconomic conditions increase those risks and uncertainties. As a result of these and other factors, actual results may deviate materially from the outlook presented above.
